II. SUBJECT OF AGREEMENT AND COOPERATION WORKFLOW

2.1 The Broker hereby undertakes to conduct, on a non-exclusive basis, brokerage and mediation activities aimed at enabling the Principal to conclude contracts of sale or supply contracts with third parties (hereinafter "**Clients**") for the supply of the Principal's products and systems (hereinafter a "**Mediated Transaction**").

2.2 The subject of brokerage consists exclusively of the innovative products presented at www.treetino.com (and www.treetino.eu), specifically autonomous hybrid energy trees **Treetino V1**, **Treetino V2**, standalone vertical wind micro-turbines, and related technological accessories (hereinafter "**Products**").

2.3 Lead Registration and Contracting Process: The Broker registers prospective Clients (leads) in the Treetino Pricing partner portal or in writing via e-mail with the Principal. Provided the prospective Client is not already in active commercial negotiations with the Principal at the time of registration, the registered lead is allocated to the Broker for a period of 6 months. Based on the inquiry specifications, the binding price quotation, contractual documentation, and invoicing details for the Client are prepared directly by the Principal, which concludes the respective supply or purchase contract with the Client.

2.4 Presentation Standards: When presenting the Products, the Broker shall rely on official product datasheets, presentations, and outputs from the Treetino Pricing application. Any custom technical specifications, yield guarantees, delivery schedules, or commercial terms are binding exclusively if incorporated in writing into the final contract executed between the Principal and the Client. The Principal reserves the right of final approval over the terms of each transaction.

III. COMMISSION TERMS AND PAYOUTS

3.1 Commission Rate: For procuring the opportunity to conclude a contract with a Client, the Broker is entitled to a commission of **5% of the net selling price of the Products excluding VAT** (after deducting any granted discounts and ancillary transport, customs, or installation costs) for each duly completed transaction, or a higher commission tier corresponding to the Broker's performance standing in the B2B partner portal (Silver, Gold, Platinum). This entitlement arises in the same amount if the Broker registers a verified lead pursuant to Clause 2.3 and the final contract negotiation is completed by the Principal.

3.2 Vesting of Commission: Entitlement to the commission arises after the valid conclusion of the contract between the Principal and the Client, at the moment and in the proportion in which the Client settles the agreed price of the Products (or its respective milestone or deposit) pursuant to the tax invoice issued by the Principal. In the event of termination, withdrawal, or refund of performance to the Client, the entitlement to commission ceases to the respective extent, and any portion already paid shall be offset against subsequent commission claims or refunded by the Broker.

3.3 Invoicing and Maturity: The commission is payable within 14 calendar days of the date on which the respective payment from the Client is credited to the Principal's bank account, based on a compliant tax or accounting invoice duly issued by the Broker. If the Broker is a registered VAT payer, statutory VAT shall be added; otherwise, the invoiced commission amount is final. The agreed commission covers all costs and expenses incurred by the Broker in connection with activities hereunder (Section 2449 of the Civil Code).

IV. INTELLECTUAL PROPERTY, TRADE SECRETS & NDA

4.1 Intellectual Property: The Broker acknowledges that the Products, software, and technologies are subject to patent, industrial design, utility model, and trademark protections owned by the Principal. The Broker is strictly prohibited from copying, reverse engineering, or assisting any third party in unauthorized utilization of the Principal's technology.

4.2 Trade Secrets & Confidentiality: All technical, pricing, calculation models within the Treetino Pricing app, customer databases, and marketing strategies constitute proprietary trade secrets of the Principal.

4.3 Confidentiality Obligation: The Broker undertakes to maintain strict confidentiality during the term of this Agreement and for a period of 5 (five) years following its termination; and indefinitely with respect to statutory trade secrets and proprietary technical know-how.

V. CONTRACTUAL PENALTIES AND DAMAGES

5.1 In the event of any breach of the obligations specified in Article IV by the Broker, the Broker shall pay the Principal a contractual penalty of **CZK 500,000 (five hundred thousand Czech Crowns)** for each individual violation.

5.2 The right to claim full damages, loss of profits, and injunctive relief exceeding the contractual penalty remains completely unaffected and directly enforceable.

VI. DURATION AND FINAL PROVISIONS

6.1 This Agreement is concluded for an indefinite duration. Either Party may terminate this Agreement without giving cause by giving 1 month's written notice, commencing on the first day of the calendar month following delivery.

6.2 Legal relationships established hereunder are governed by the laws of the Czech Republic, particularly Act No. 89/2012 Coll., the Civil Code. Any disputes shall be settled by the competent courts of the Czech Republic having jurisdiction over the Principal's registered seat.

6.3 This Agreement is executed in two counterparts, each having the force of an original, or in an electronic counterpart executed with valid electronic signatures.

6.4 The Parties declare that they have read and understood this Agreement, enter into it freely, seriously, and knowingly, and affix their signatures in witness thereof.
